### GARDEN CARPETS

Iranians love the outdoors so well and have such a reverence for Nature that they favor carpets woven in the colorful designs of gardens with walks, streams, lawns, trees, beds of flowers and the like. In bleak weather, they put down such a carpet beside a favorite stream, install a samovar, recite poetry, and enjoy the beauties of springtime in retrospect through vivid imagination in their heads and the comfort of a woolen rug under foot.

Might not work in Texas with the affinity that bugs and insects seem to have for picnickers but we can be glad that the Iranians enjoy the custom.

How would a grazing cow react to a Texan reciting poetry in the open, reckon? And on a carpet, at that.

### ROCK-A-DRY BABY

From the want ad section of a Kentucky paper: "WANTED--Will baby-sit in my home. Prefer diaper-trained babies."

It's the old battle of Wets vs Drys.

### FEW & FAR BETWEEN

"Very few country editors," says the BIENVILLE (La.) DEMOCRAT, "have ever dated their weekly publications February 29. It is not often possible for in the last 152 years, Feb. 29 has fallen on a Thursday only four times: in the years 1816, 1844 and 1872 and 1940. The next Thursday, Feb. 29, is scheduled for 1996."

### RARE THING

Recently returned from the Winter Olympics in Grenoble, Jim Murray of the Omaha (Neb.) World-Herald says: "The only way to get a well-done steak in France is to be sure the cow was out in the sun before she was butchered." He added that the chickens served had all died of leukemia.

### Pecan Workshop Set At Yancey

A pecan production workshop will be conducted by the County Extension Office and the Medina County Crop Subcommittee in Yancey, Wednesday, March 6, at 2:30 p.m.

B. G. Handcock, horticultural specialist, Texas A&M University, will be present to discuss grafting of pecans, fertilization, recommended varieties, disease control, and insect control.

The program will begin in the Vocational Agricultural Building at the Yancey School. Later the group will move to the McCrea pecan orchard for practical field work.

All interested persons are invited to attend.

Makes the home-cooked hamburger and fried chicken more appetizing all the time. BYE-BYE, NECKTIE?

A Paris designer says the necktie "has no place in the world of tomorrow," and predicts it will be completely obsolete in five years.

Instead, he offers sculptured jewelry to be worn with the increasingly popular turtle necks -- such as silver lion-head door knockers, dangling from chains; or Nehru jackets with braid trim.

For the die-hard necktie wearers, Paris offers the cravatini, a double-fall of silk similar to an ascot.

Pay your money men, take your chance -- including that of survival, especially if you live in Texas.

### VASCAR

Is being tested by the Nebraska State Patrol as a speed-detecting device said to be an improvement over RADAR.

VASCAR is short for Visual Average Speed Computer and Recorder. It enables troopers to measure distance accurately between any two points and to time a vehicle as it travels between, permitting measurement of the speed of a car being followed as well as that of approaching vehicles, those coming from the rear and those crossing intersections.

Also, VASCAR can be operated from a parked car or while patrolling.

If you're over Nebraska-way, VASCAR "might git yo' ef yo' don't watch out!"

### PUBLIC SCHOOLS WEEK

In Texas is being observed March 4-8. This is a special opportunity for parents and school patrons to visit classrooms and learn how their tax dollars are being spent "to train new ideas to shoot."

No announcement has been made of the participation of local schools in Public School Week, as proclaimed by Governor Connally, but our school heads and faculty members have always cooperated and can be counted on to do so.

Visit your child's classroom and be grateful for the opportunity that is his, made possible by our schools and their dedicated teachers.

Governor Connally reminds us that "Our goal is to make Texas public schools the finest in the Nation, and to achieve this our citizens are urged to take an active interest in the school systems and to cooperate with their school boards, superintendents, principals and teachers."

...A powerful force for good is that word "COOPERATE".

### NEW HONOR FOR BRISCOE

UVALDE--Dolph Briscoe Jr. returned last weekend to neighboring Laredo for the annual George Washington's Birthday Celebration, where he was named Mr. South Texas in 1967 for his outstanding community service.

This year, however, another member of the Briscoe family took the spotlight. Pert Miss Janey Briscoe, 17, blue-eyed brunette daughter of Mr. and Mrs. Briscoe, was one of the debutantes from out of the city presented by the Society of Martha Washington at the annual Colonial Pageant and Ball, key event of the Laredo celebration, Feb. 22-25.

The pageant was held Friday evening, Feb. 23, in the Laredo Civic Center Auditorium. The ball followed in the Convention Hall.

Ten visiting debutantes shared the spotlight with 11 Laredo debs.

Miss Briscoe is a senior at Uvalde High School, where she was crowned the homecoming queen last fall.

She was on hand in Laredo a year ago when her father was honored as Mr. South Texas.

Briscoe, ranchman, banker and businessman who is a candidate for governor, was cited for his dedication to community service. He is serving his second term as president of South Texas Chamber of Commerce in 1967-68.

He served eight years as a member of the Texas Legislature, was Texas chairman of National Farm-City Week, has been a leader in the Boy Scout program, and is active in other local civic, church and veteran organizations.

Briscoe was named an Outstanding Young Texan by the Jaycees.

### Community To Observe Day Of Prayer

The public is invited to participate in the World Day of Prayer Service to be held at St. Paul Lutheran Church Friday, March 1, at 7:30 p.m.

Father Bob Silverman of St. John's Catholic will present the meditation. Pastor A. M. Hannemann of the Lutheran Church, Rev. John Berkley of First Methodist, and women representing the city's churches will assist.

The primary purpose of the World Day of Prayer service is to lead the participants into an active experience of prayer and a sense of oneness with Christians around the world.

On this day are brought together across denominational, racial, national, and cultural boundaries to pray for the needs of the world and to make an offering for carrying out the Church's mission around the world.

### New Honor For Rev. Ehlinger

The Rev. Harold J. Ehlinger, former pastor of St. John's Catholic Church, Hondo, received a Pontifical promotion and honors from Pope Paul IV.

Presently pastor of St. Mary's Church, Fredericksburg, and dean of the Fredericksburg deanery, Rev. Ehlinger was promoted to the rank of domestic prelate with the title of Rt. Rev. Monsignor. His brother, Msgr. Paul J. Ehlinger of St. Stanislaus Church, Bandera, was also named a domestic prelate which is a permanent rank in the Catholic priesthood.

### EASTER SEAL SALES OPEN

Easter Seal Appeal letters are to be delivered this week in Medina County according to Henry M. Finger, representative of the Easter Seal Society for Crippled Children and Adults of Texas.

Mr. Finger serves as contact representative for disabled persons needing Easter Seal rehabilitation services and also serves as treasurer of the Easter Seal Appeal in Medina County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the annual Easter Seal Appeal.

The Society also provides for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of professional personnel to staff rehabilitation centers.

During 1967, the Texas Easter Seal Society provided treatment and services to 17,622 children and adults who were in need of rehabilitation services. "These services are available to any disabled person who can benefit from help provided by the Easter Seal Society," said Mr. Finger.

The Easter Seal Campaign will run through Easter Sunday, April 14.

### Mico Homes Burglarized

Burglars entered four summer homes in the Mico area, Medina Lake, last Friday.

When Conrad Wurzbach went to his home to check on it, his dog jumped out of the pickup and began barking indicating the presence of strangers.

Wurzbach says this alarmed the burglars who fled but one man was captured in a roadblock set up by officers and he is now in the Medina County Jail awaiting trial.

The homes entered were those of Wurzbach, Byler, Dale and McKay. A television set, radios and various electrical appliances that had been placed on the ground for removal were recovered.

### Phone Co. Traces Obscene Calls

Fast action by Corpus Christi police, in cooperation with Southwestern Bell Telephone Company there, resulted in the arrest on Feb. 13 of a suspect who was booked for placing obscene telephone calls.

For several weeks, a young lady PBX receptionist for a Corpus Christi firm had been receiving obscene calls from a man caller. Police and telephone company officials set up call-trapping procedures to trace the calls.

Their efforts met with success Tuesday, about 5 p.m., when the girl receptionist received another such call. It was determined the call was originating at a pay phone located at one of the Corpus Christi libraries. Patrolmen R. D. Tatum and J. A. Rios apprehended the 17-year old male with the telephone in his hand and talked with the receptionist who was still on the line to confirm that she had, indeed, received the call.

Under Texas statutes, placing obscene calls is a criminal offense punishable on conviction by a fine of from \$100 to \$1,000 or by imprisonment in the county jail for from one to twelve months, or by both fine and imprisonment.

Gray Bryant, district manager for Southwestern Bell, said, "The Corpus Christi police force deserves the highest praise for their excellent work and fast action in this case. We declared war on obscene callers some time ago and we will cooperate to the fullest in putting a stop to such harassment."

### Natalia To Vote On Incorporation

Natalia citizens will vote Saturday, March 2, on whether or not to incorporate.

Announcement of the election was made this week.

Engineering planning on the Seco Creek and Leona watershed projects is now scheduled to begin almost immediately.

The advance work toward this step began in May of last year when a public hearing was held in D'Hanis to present, to the State Soil Conservation Board, facts that warranted action to prevent repetition of flood disasters such as those suffered in the two watershed areas on many occasions.

A cut-back in federal spending caused withdrawal of certain funds previously appropriated for the Seco-Leona work. The authorities in charge had been advised that the only way to insure action without further delay was for local interests to supply one-half of the required money for the engineering planning.

In a meeting Tuesday afternoon in San Antonio, directors of the Edwards Underground Water District voted unanimously to put up the funds required.

Allocated accordingly were the sums of \$35,000 for the Seco and \$22,000 for the Leona watershed. The two watersheds will be designed to serve the D'Hanis area and the Uvalde area respectively.

Bradley Bailey, one of the directors from Medina County, said that the Leona engineering planning would probably get under way early in April and the Seco about May 1, after plans are developed with watershed sponsors.

Sponsoring the Seco project are Edwards Underground Water District, the Commissioners Courts of Medina, Uvalde and Bandera Counties, and the Medina Valley and the Nueces-Sabinal-Frio Soil Conservation Districts.

Sponsors of the Leona project are the City of Uvalde, the Uvalde County Commissioners Court and the Nueces-Frio-Sabinal Conservation District.

### RECHARGE BENEFITS

Basis for the EUWD participation in the costs of the engineering planning cover a dual purpose, Bailey said. The District considered the recharge benefits from the two proposed watersheds.

Estimated results include addition of 5,000 acre feet of underground water per year from the Seco and 2,400 acre feet per year from the Leona.

Attending the Tuesday meeting to represent Medina County were Directors Bradley Bailey, Lawrence Rothe and Maurice DeCock. Also present was E. L. Abbott, work conservationist with the Hondo office of the U.S. Soil Conservation Service.

FIRE AT THE GARY HANGAR started on the east side. For story and pictures see page 11.

Councilman G. E. Pete Pedroza raises a bandaged right hand, cast and all, as City Attorney Hugh Meyer administers the oath of office. Pedroza was appointed by Mayor Decker to fill the unexpired term of Albert Rowlett who resigned his post to accept the managership of the city's water department. Pedroza explains that his arm was not "twisted" -- he broke it in a fall from a ladder while he was doing a good turn for his "in-laws".

### Definitions Of Freedom

Ever wonder why we have so much lawlessness in America today?

Take a look at some of the current definitions of FREEDOM, as found in a "comprehensive desk dictionary":

FREEDOM—n., (1) state or condition of being free; (2) not being under another's control; power to do, say or think as one pleases; liberty; (3) right of enjoying all privileges accompanying citizenship, membership etc.; (4) release from ties, obligations, control etc.; (5) exemption; immunity. (6) free use: "We give a guest freedom of our home." (7) lack of restraint; frankness; (8) undue familiarity; (9) ease of movement or action.

That's the pattern. No wonder our laws are paralyzed.

Freedom of choice is our pattern — our way — direction or practice — with laws to direct a right proce-

dure.

Consider definition (6) — the type of guest concerns us. Is this an invited guest or one who chooses to come in because he has "freedom" to do so?

Where is integrity today to allow such a definition to enter our educational pattern? If children are taught the meaning of freedom in this concept or definition, parents lose authority. Law is powerless because choice is not a factor to be considered in this interpretation of the priceless freedom upon which our nation was founded.

Freedom now seems to represent an imposing situation without feeling, without judgment and with no regard beyond blind desire.

Who, or what, is to blame for this chaotic trend?

### TOO BAD HE'S A...

"You know, he's a real nice fellow. Too bad he's a . . ."

"I'm not prejudiced. Some of my best friends are . . ."

How many times have you heard those words? How many times have you spoken them yourself?

We're not talking about the degrading and ugly terms aimed at people or beliefs. We're talking about the simple, everyday expressions that drop, not with venom, but from a small shaded area of the mind and spirit.

These are small things and you or your neighbor probably would be incensed if you were challenged for speaking them.

But they grow into giant size when you measure the difference that separates people, causing them to stand shoulder-to-shoulder in common cause one moment and then break apart into a dozen little worlds of their own when the job is done.

It's sad enough that there is so little real peace in the world with nations and philosophies locked up in bloody wars.

But it's even sadder that right here at home there are so many dif-

ferences that keep people apart, so many invisible lines that stand between races, religions and even social and political opinions.

You can work or study all day long with people who aren't quite like you. Usually you get along pretty well together. They do nothing deliberately to offend you and you are careful not to offend them. But you are different. You know it. They know it. And there's the invisible rub.

Heaven forbid that we'll ever reach the point when someone will tell us we must like everyone else! That simply won't ever happen.

Dislike people all you like. But dislike them because their attitude or language offends you, not because they are Protestant, Catholic, Jew, White, Negro, Northerner, Southerner, Democrat or Republican.

This is National Brotherhood Week, and 1968 is the 40th anniversary of the National Conference of Christians and Jews.

It is a proper time for all of us to realize that there are far more reasons for our needing one another than there are reasons for the opposite.

### TB PROGRAM NEEDS SUPPORT IN MEDINA COUNTY

Dr. Jack A. Bergfeld, President of the Alamo Area Tuberculosis Association, announced today that the AATA's plans for an intensive 20-county health education program and Mobile X-ray survey remain in danger as receipts from the annual Christmas Seal Campaign are far short of the minimum goal set by the association.

Affected by the danger is Medina County, which is included in the Alamo Area group. Although \$5,600 was received during the two-week period from February 1 through February 15 (in response to an urgent plea made to area residents in late January) the total only reached \$91,000 mark. A minimum of \$105,000 is needed to carry on the association's program of work for 1968.

MOBILE X-RAY SERVICE  
Dr. Bergfeld said, "The AATA is the only voluntary health organization which provides Mobile X-ray service to the 20-counties within the AATA. During January the Mobile X-ray Unit was at 22 different locations throughout San Antonio and 2,144 chest X-rays were taken. From June through September this year, the Mobile X-ray Unit will travel the other 19 counties in the AATA so that school teachers, food handlers and other school personnel may avail themselves of this service."

CASES INCREASE  
Health authorities report that during January 1968, 17 new active cases of Tuberculosis were discovered in Bexar County. This represents an increase of five new cases for the same period last year.

FILM SHOWN  
Dr. Bergfeld pointed out that 22 schools in the Edgewood and San Antonio Independent Schools Districts will have been visited during the

**OH THE COUNTRY ISN'T THE COUNTRY ANYMORE!**

Rural electricity from the member-owned Medina Electric Cooperative has made the country store pretty much like its city cousin ... and has made the rural home as modern and convenient as its city counterpart. As a matter of fact, there is a higher percentage of electric ranges in rural kitchens than in city homes and a far higher percentage of home freezers, electric water heaters and electrically heated homes. So the home town Trading Post sells washing machines ... lots of them ... instead of wash pots.

Living in clean, quiet, rural areas is happier and healthier thanks to a dependable supply of low-cost electricity from the Medina Electric Cooperative that is building a brighter tomorrow and Helping Texas Grow.

**Time To Prune by the Hondo Garden Club**

It has been said that plants are a lot like people, but they talk their own language. And, if they could talk to all Hondo gardeners now, they would be saying, "Prune me, prune me, prune me!"

Pruning trees, shrubs, and bushes right now will insure a beautiful spring, summer, and fall for garden-minded citizens, says J. E. Shows, local nursery operator. In pruning out all little branches and all dead surplus wood, the gardener is giving the tree or bush a chance to build up life-sustaining root stock which guarantees heavier, better, juicier, and fatter fruit.

Now is the time, according to Mr. Shows, to prune all types of fruit trees, any nut-bearing trees--especially rose bushes. He warns, however, that each wound or trimmed limb should be coated with tree dressing, a tar-asphalt mixture, to seal the wound. Acting as a sealer, this process keeps in the tree's life-giving sap as well as keeping out water which can cause tree decay.

A simple pair of garden shears or pruning shears can be utilized by the gardener for most shrubbery and bush-pruning operations. The cut should not be a horizontal slice but a diagonal one forming a slanted wound on each branch.

**SPRAY**

Mr. Shows also advises that in addition to pruning, an emulsion spray of dexteral, soap, and water can be administered now to kill common plant pests such as white flies on gardenias and hedges, and turtle back scale on fruit trees. In spraying, the gardener is to use a great amount of soap in the mixture so that it will stick to the leaves of the plant.

"Go with nature and not against it," is Mr. Shows' philosophy on gardening. Every gardener--green thumb or not--can help nature along by proper pruning and care of his plants.

**STRENGTH FOR THESE DAYS**  
from The Bible

The prayer of faith will save the sick. (James 5:15)

When we know of someone or hear of someone with a healing need, there is a way in which we can be of real and definite help. This is through our prayers. It is an act of caring to pray for another. We do so because we are interested in him, because we want to see him well again, because we want to see him free from bodily distress of any kind.

## A BISHOP LOOKS AT LIFE

BY THE RT. REV. EVERETT H. JONES, D.D.  
The Episcopal Church, Diocese of West Texas

An artist friend came to our house. We wanted him to see where we had placed a piece of sculpture he had made. He gave the object a quick glance and then began to see how he might have done better. He offered to take it back to his studio in order to add certain refining touches. We could see at work in him the creative urge to make something more perfect, more beautiful.

This is the creative spirit which motivates the artist in whatever field he is working. It has never been expressed more effectively than by the American artist Robert Henri in his book "The Art Spirit". This man was the leader in an art revolution that began in this country early in this century. He gathered together a group of like-minded artists who have become known as "the immortal eight" and they created what is known as "The Ashcan School" in the field of painting. Their central purpose was to reveal the beauty of God's whole creation, even in what may seem drab or ugly to the callous mind. They

exhibited their works in the famous Armory Show of 1913, in New York City, and began a whole new trend in painting. Henri as the leader of this movement taught his students to be interested in the dignity of man and he wonder of life around them. He put the living of a fine life ahead of the making of art. He wrote: "Art is simply a question of doing things, anything, well. When the artist is alive in any person he becomes an inventive, searching, daring, self-expressive creature. He disturbs, upsets, enlightens."

Is there a better way to express what Jesus, the master in the art of living, has done for the world and for us? It was his genius to see in every person the imprisoned splendor, and to give the power for that splendor to be expressed.

## VEHICLE REGISTRATION FOR '68 TO SET RECORD

AUSTIN — State Highway Engineer J. C. Dingwall today announced that Texas will register approximately 7 million vehicles during 1968. "This is the largest number in our history," Dingwall said.

All 1968 Texas license plates have been delivered to the 254 County Tax Assessor-Collectors for issuance during February and March of 1968.

Of the estimated 7 million vehicles to be registered, the Texas Highway Department believes that 4.75 million will be passenger cars and 1.9 million will be commercial trucks and truck tractors. Trailers and motorcycles will account for the balance.

The most dramatic increase is expected in the motorcycle category, based on the past two years' experience. While passenger car and commercial truck registration will increase about 3 1/2 percent, motorcycle registration is expected to increase 16 percent. This follows a 25 percent increase in motorcycles in 1966 over 1965 and

another 17 percent increase last year.

Motor vehicle owners can avoid long lines by registering during the month of February, rather than waiting until the March rush.

Owners should bring four items to the Tax Collector's office when registering vehicles: certificate of title, 1967 license receipt, current resident address, and zip code.

State law requires each owner to register his vehicle in the county in which he resides and to present his certificate of title as evidence of ownership.

During the 1967 session the Texas Legislature amended the Texas Registration Law by changing passenger car license fees and establishing a minimum fee of \$5.30 for all vehicles, including boat trailers.

The new rate for passenger cars are as follows:  
Up to 3,500 pounds — \$12.30  
3,500-4,500 pounds — \$22.30  
4,500-6,000 pounds — \$30.30  
More than 6,000 pounds — \$5 per 100 pounds.

# Disastrous Fire Guts Gary Hangar No. 1

## Business As Usual Monday Morning

It was back to "business as usual" Monday for the 100 or more employees of Gary Aircraft Corporation, following a fire Sunday afternoon which almost destroyed Hangar No. 1 of their extensive operation at the local airbase.

Although the total loss has not been determined, A. J. Stewart, production manager and son of Gary's President A. W. Stewart, said that their own loss in property "might approximate \$10,000". Biggest loss was to the City of Hondo.

Mayor Jerome Decker said the city-owned hangar was not covered by insurance. "We inherited the present no-insurance status of airbase buildings," he said. "Premium costs made insurance prohibitive and our loss has been minimal by comparison, so far."

Quick response by the Hondo Volunteer Fire Department and the cooperative help from the fire departments of Devine, Uvalde, D'Hanis and Castroville saved enough of the old wooden hangar to warrant immediate rebuilding, using some of the huge beams and three vertical uprights as a starter.

Stewart said he was notified of the fire just as he had begun to serve a family dinner at his home, at about 1 p.m. Sunday.

The fire was discovered by Sal Luna, assistant supervisor of the Gary Aircraft program,

when he drove by the building with his family.

When no work is going on, Gary maintains a regular watch crew to make inspections on a given pattern. The guard had completed one routine check and was in Hangar 3 for a return to Hangar 1 in about eight minutes. Had Luna not made his chance discovery, said Stewart, the fire might have gained headway beyond control.

Hondo firemen responded, full force, within less than ten minutes after the alarm was sounded. First to arrive was the department's newest fire truck, driven by Charles Lutz who had the equipment going within 4 to 6 minutes, Stewart said.

Luna had tried to extinguish the blaze and had fought it with seven CO-2 bottles and one soda acid extinguisher while waiting for help. He had fallen on the floor, almost overcome by smoke when A. J. Stewart arrived and pulled him to safety. Two planes shored up on jacks for overhaul, were moved when additional help arrived. A Gary plane parked about 50 feet outside the hangar was moved to safety on its own power.

1/Sgt. Margarito Gamboa of the National Guard Armory manned the Gary foam truck that spread the west side of the hangar with a thick coating of foam to retain the spread of flames there.

Stewart said that Gary had salvaged most of the tools in the big tool crib, as well as work platforms, jacks and other main equipment and that these were put back in use. He said Gary had lost their technical library and this would be difficult to replace although necessary reference material was available from Kelly AFB, Government property loss, he said, was "minimal".

Gary employees reported to their posts Sunday afternoon and were paid overtime to clean up the fire damage. They were cleaning rubble with Gary forklifts Monday and most of the force had returned to regular detail the next day.

NEW CONTRACTS  
Mayor Decker said Tuesday that the city was awaiting quotations and planned to rebuild immediately.

Stewart said that new government contracts would be due for bids July 1. Effort will be made to restore the facility by mid-June if possible to enable Gary to resume schedules, assuming confirmation of pending contracts.

He added that Gary would still be able to fulfill present contract deadlines with no interruption of work.

Stewart and Decker both said this was the first time that a wooden hangar on fire had been saved. The old tar and wooden roof made ready tinder for the spread of the flames.

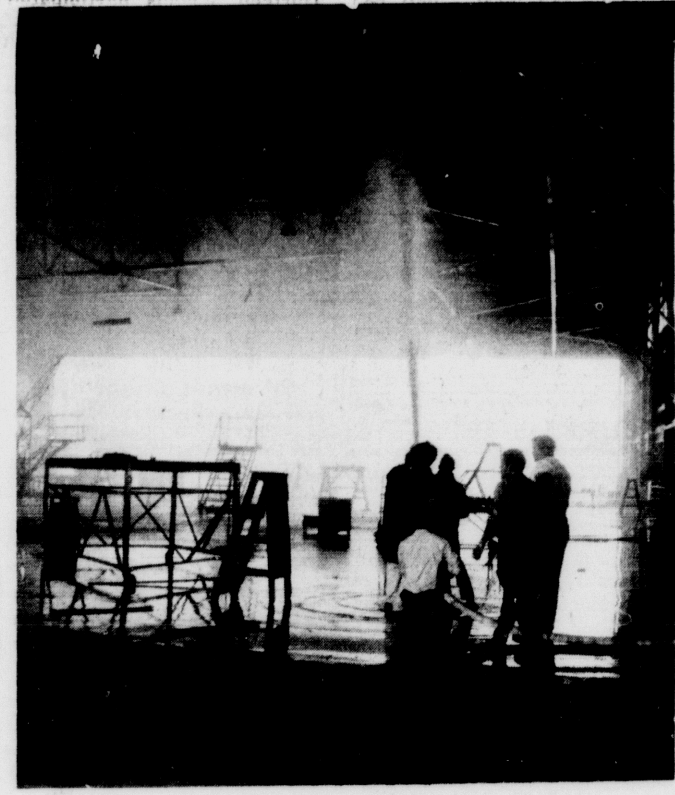

An Air Force Board of Inquiry is reviewing the results of the big fire to determine the cause and damages.

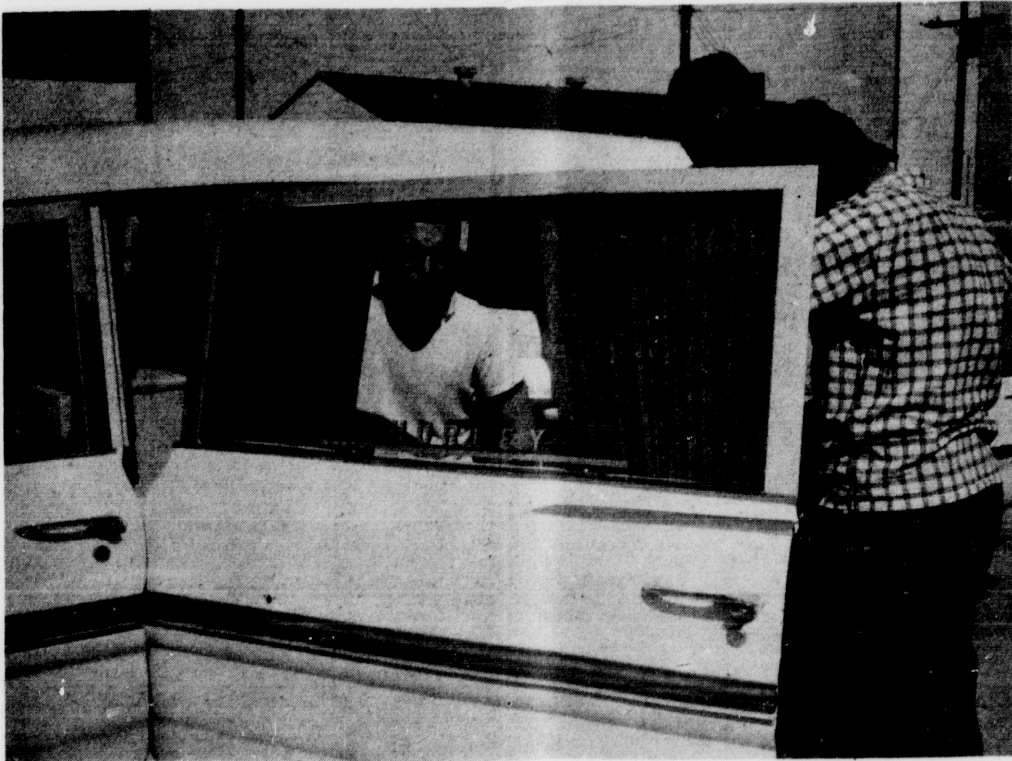

North side. Firemen and volunteers anxiously watch the steel girders but stand their ground. The photographer was asked to get outside because of the danger.

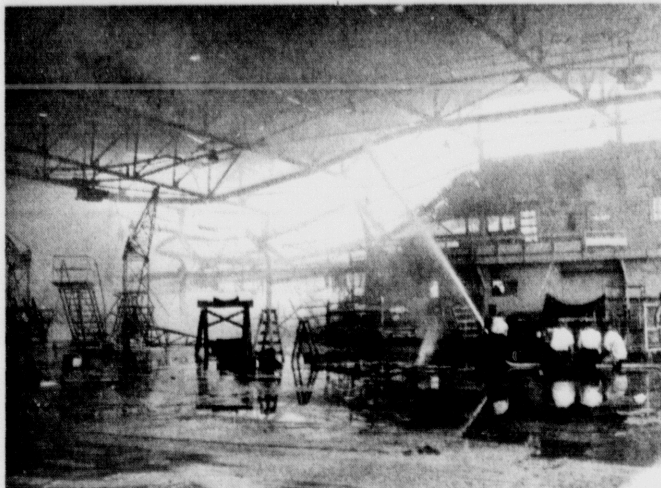

Uvalde VFD also answered fire call at Hondo, but distance kept them from arriving at the scene until 2:00 p.m. They wasted no time in getting their truck in position.

First spurt of the hose by Uvalde firemen hits the ceiling where flames contributed to play hide-and-seek with firemen.

Sal Luna, who was overcome by smoke and exhaustion, did not want to be photographed taking oxygen. Hurley attendants, Franklin Wiemers and his son, James, who administered the oxygen, are shown while an unidentified man in the checked shirt shields Luna.

On the south side, equipment still stands, waiting to be removed, while firemen fight the ceiling fire.

East side. Firemen play the hose on the roof and shingles started flying from the force of the spray.

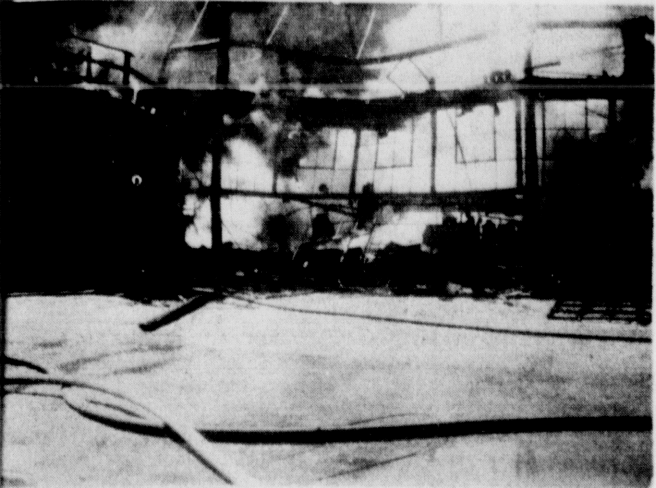

South side. D'Hanis VFD and volunteers kept spraying the hose at this end of the building to quell a rebellious blaze.

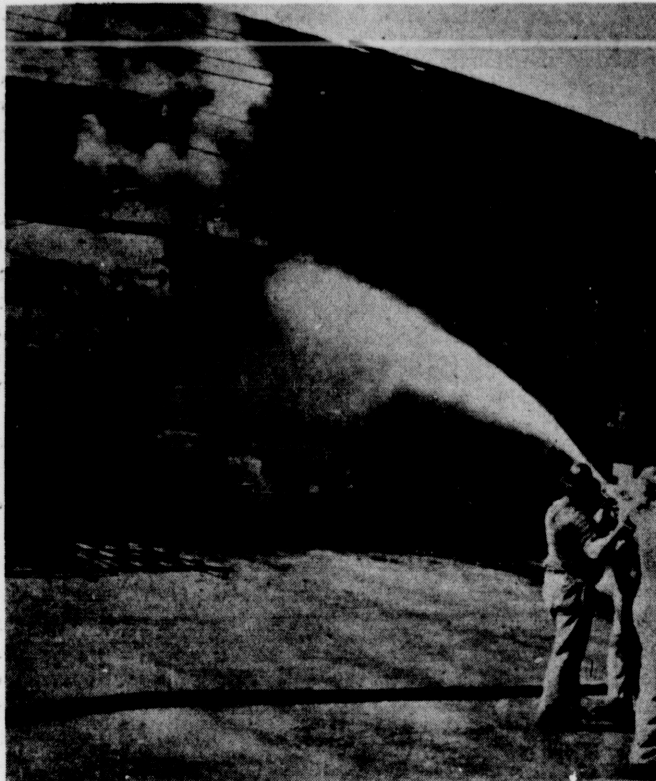

North side. Devine VFD and Hondo VFD had two hoses aimed at the ceiling. The fire departments all had many willing volunteers of the day to help them.

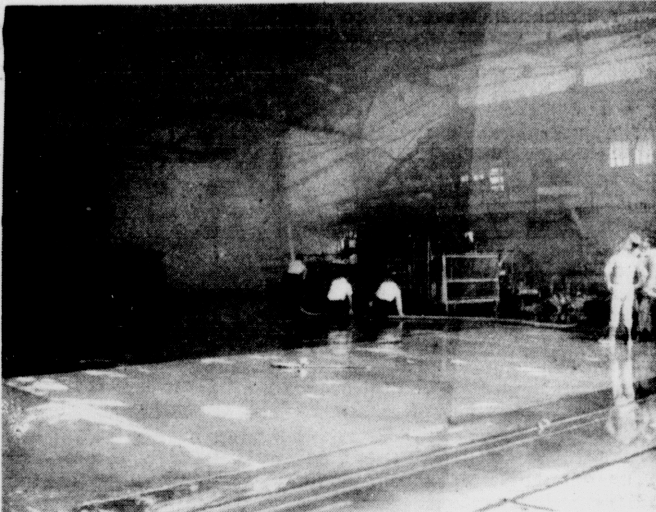

Castroville Volunteer Fire Department also answered Hondo's call. This picture was taken as they were putting their equipment away, ready to head for home.

Fire started in room on east side of Hangar 1, Sunday, Feb. 25, and was discovered at 1:00 p.m. When the photographer arrived around 1:30 p.m. this was the way the east side of the hangar looked. Firemen inside seemed oblivious of the danger.

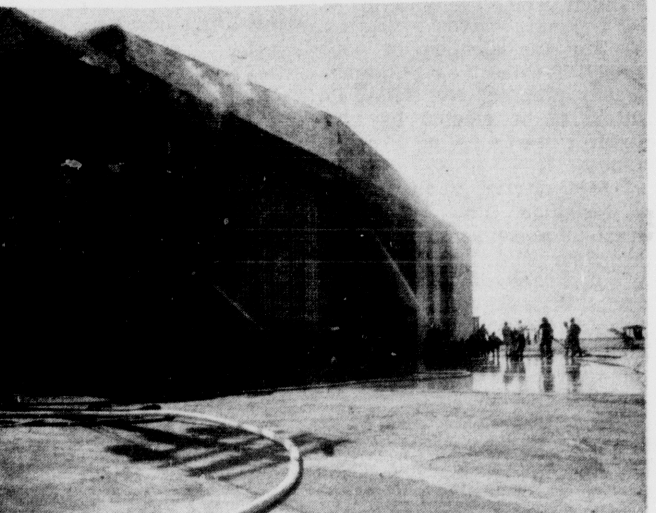

This was taken a few minutes later to the left of picture above.

Inside the hangar, firemen, many in their Sunday go-to-meeting clothes, aimed hoses at the ceiling of the hangar.

On the west side, firemen stood on top of the hangar patiently waiting for the water to come through. One man was breaking a hole to the left of the ventilating fan, while spray from a fire hose on the opposite side of the building outlines an antenna.

On the north side, firemen and many volunteers, wet down the building and play the hoses on the inside ceiling.

## MICO

By Viola Dugosh

Mr. and Mrs. Anthony Bolner and children of San Antonio visited Mr. and Mrs. Dave Bolner on Sunday.

Mr. and Mrs. Alton Seekatz attended the boat show in San Antonio Wednesday evening.

Visitors in the home of the Paul Seidemans were Rev. B. F. Bonazza of LaVerne, Mr. Ned Lucini, Mr. and Mrs. Frank Bolner, Mrs. Charles Barbera and Woener Large, all of San Antonio; and Mr. and Mrs. George Sculley of Mico.

Our fire truck made a run to the dump on Sunday evening to extinguish a fire, probably caused by a careless cigarette smoker.

Ladies interested in making a Retreat will find this a good way to start the Lenten season. There is still time to make reservations, March 1-3 for teachers
